**JIM LANSING  
THEATRE  
SOUND SYSTEMS**

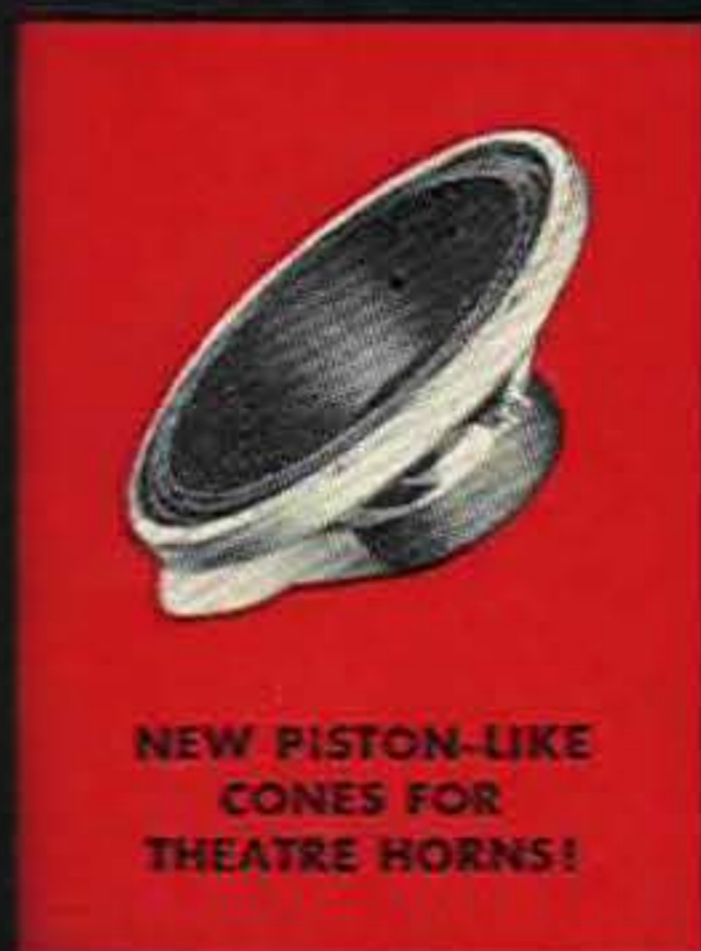

*A complete line of single and multiple  
channel systems for every size theatre.*

Ordinary theatre sound systems cannot take advantage of the extended range available with magnetic film.

The new Jim Lansing Theatre Systems, designed and developed after two years of extensive research, provide full realization of the benefits of these new recording techniques.

The result is a smoother response, extended on both ends of the spectrum, with amazingly clear and life-like reproduction.

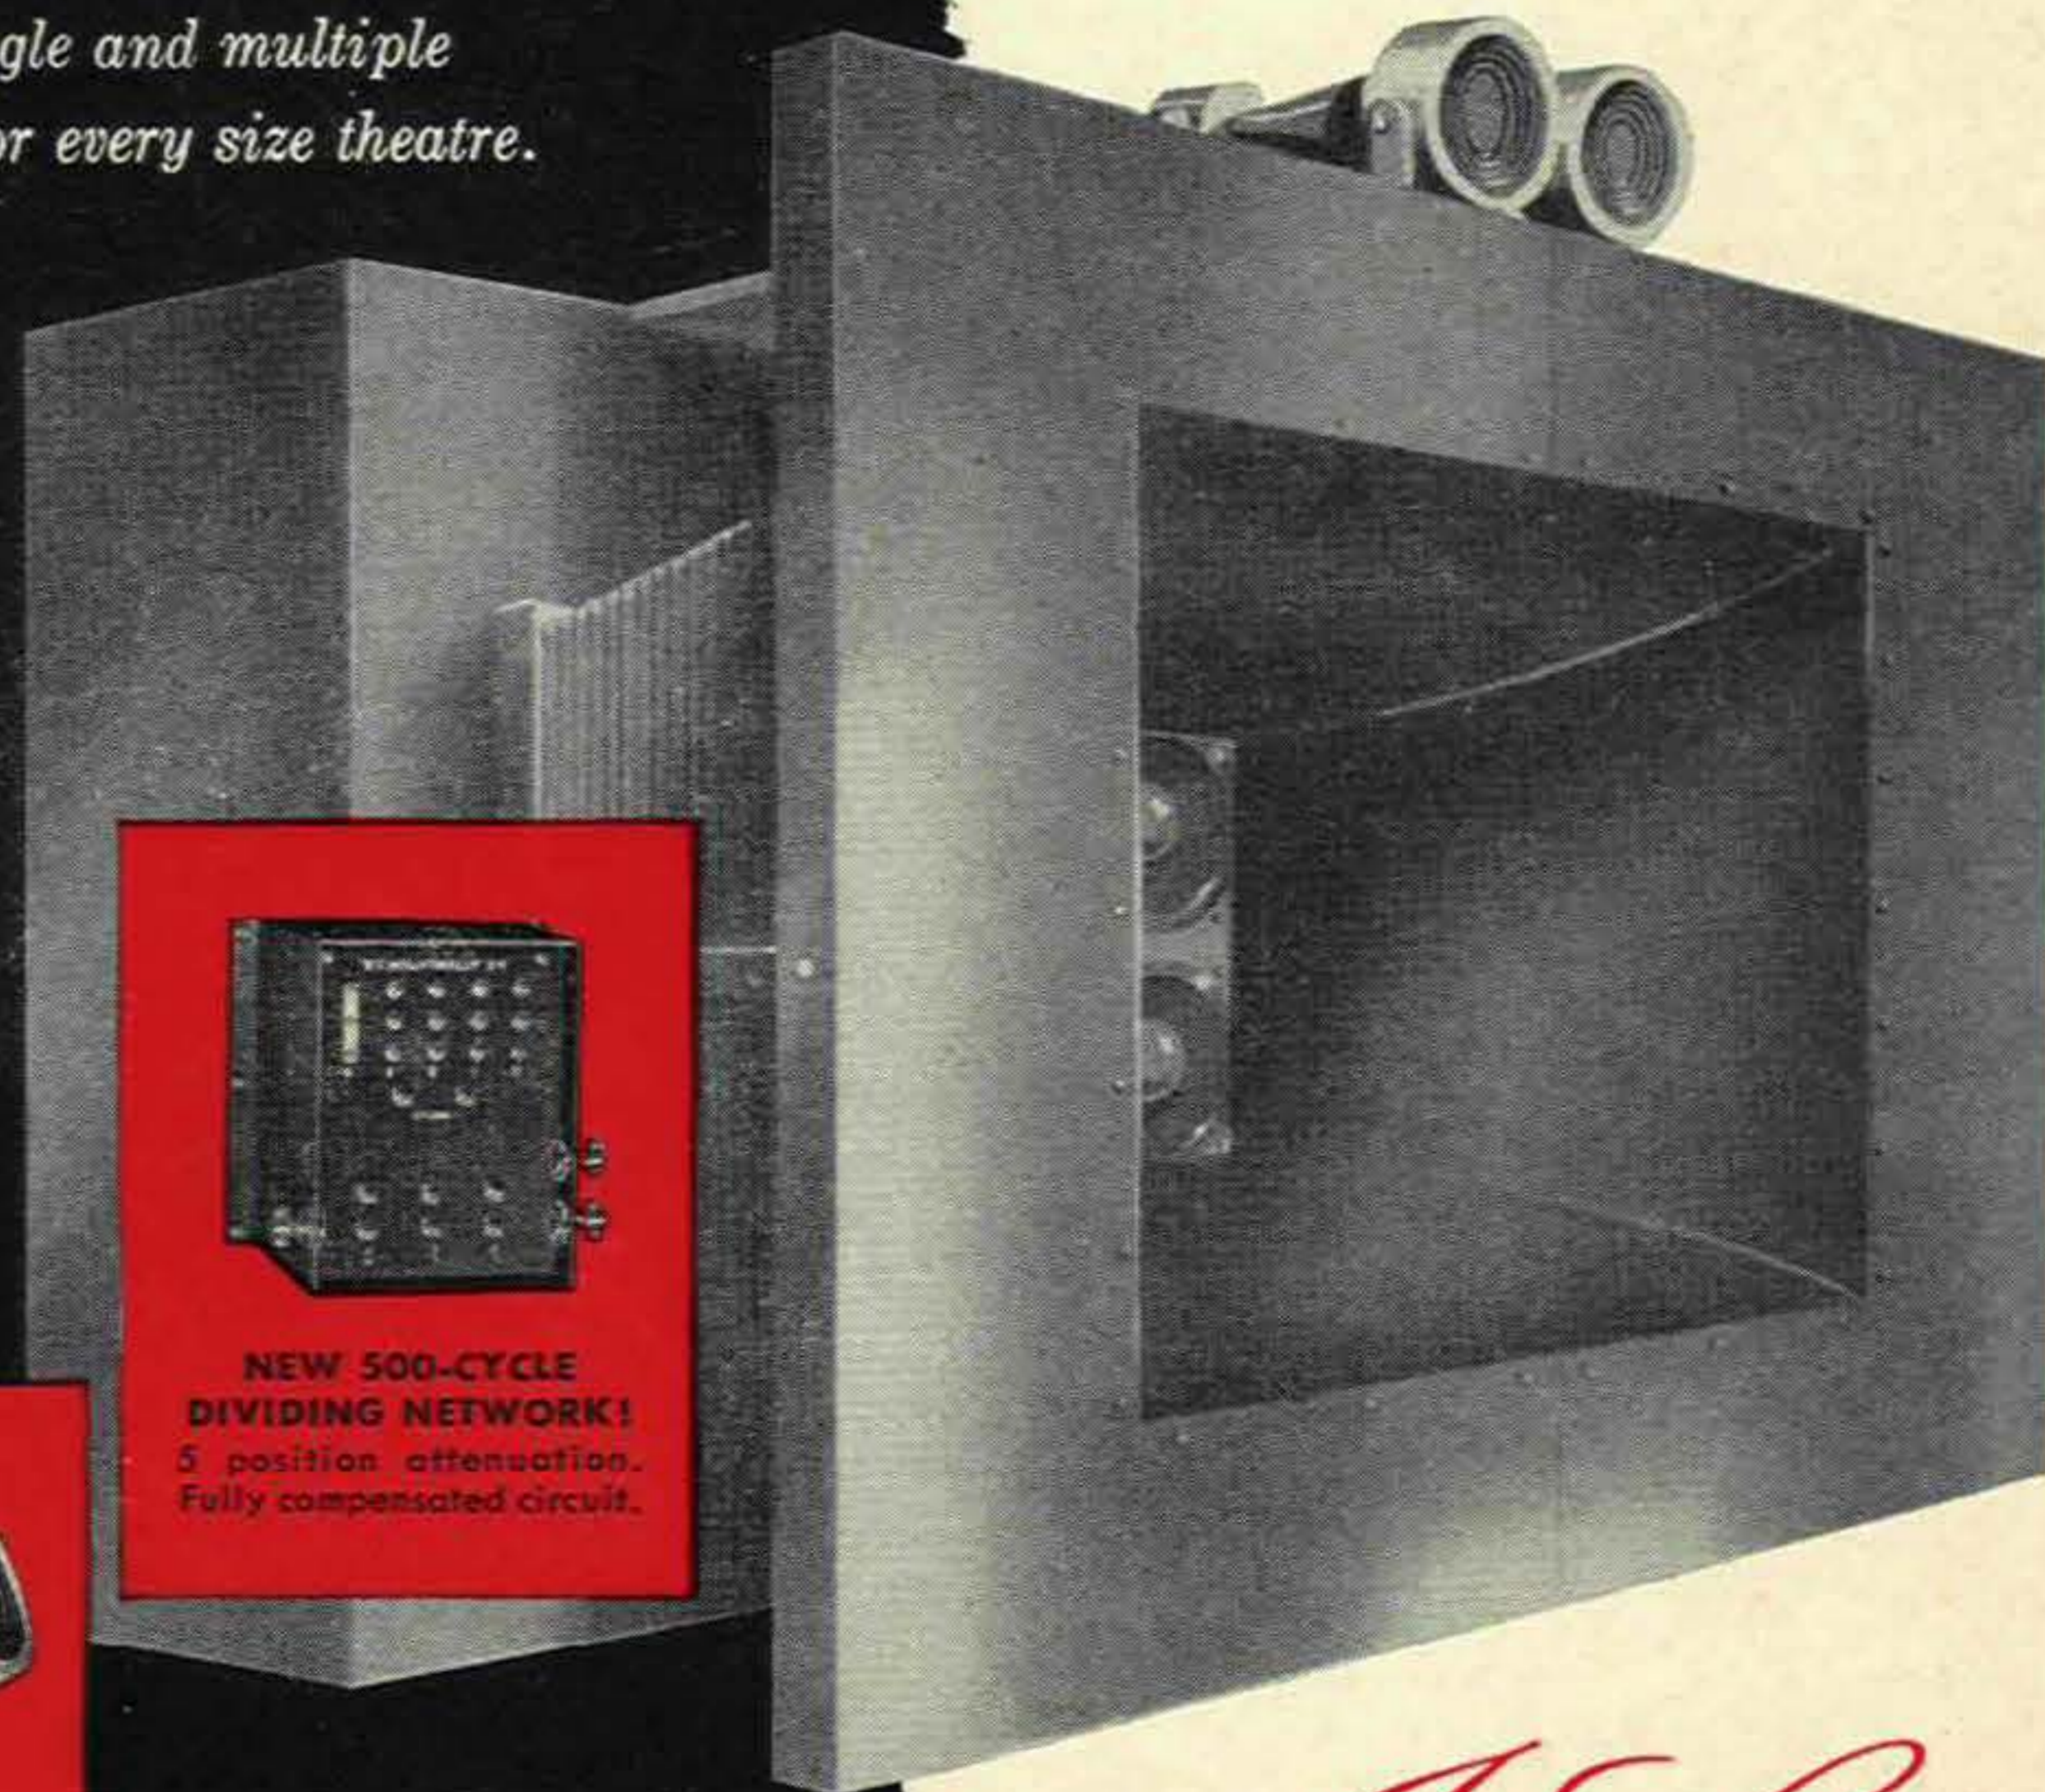

**NEW PISTON-LIKE  
CONES FOR  
THEATRE HORNS!**

**NEW DRIVER AND  
KOUSTICAL LENS!**  
Highest power handling capacity and smoothest controlled distribution of any single theatre unit!

**NEW 500-CYCLE  
DIVIDING NETWORK!**  
5 position attenuation.  
Fully compensated circuit.

Write for detailed information and prices on the new, all new Jim Lansing Theatre System today.
